Our light-framed, economical Classic System can ship preassembled and preglazed. The fully thermalized Wasco Classic structural system offers architects unlimited options for dramatic, cost-effective designs.

Wasco’s Classic Series skylight is fully tested for Air Infiltration and Water Penetration per ASTM E-283 and ASTM E-331. The dry glazed, fully guttered and weeped system is used with high performance glass or multiwall polycarbonate.

- Components are prefabricated for easy installation on site
- Designed for pyramids up to 8’ wide and double pitch or extended pyramid up to 5’ wide by unlimited length
- Versatile curb-mount design using site-built curbs for both pitched and flat roof applications
- Standard pitches available include 5:12, 7:12 and 12:12
- Concealed fasteners and narrow framing members for clean, aesthetically pleasing appearance
- Integral condensation gutters drain water to the exterior for full moisture control
- Urethane thermal break incorporated around perimeter to minimize condensation on aluminum components
- One of the industry’s first light-framed skylighting systems capable of utilizing today's high performance glazings

**Glazing Options**

**Glass** – Typical glazing is insulated glass comprised of a tempered outboard lite and an annealed or heat strengthened laminated safety glass inboard lite. Custom configuration available. Wasco’s Classic square pyramid is available in a Florida Product Approved/Non-Impact (WBDR)/Non HVHZ model. Using insulating glass made of heat strengthened low-E lites permanently bonded with one or more layers of durable Sentry Glas® Plus interlayer, model CPY-FBC has a maximum design pressure of ±80.0psf up to 82”x82” in size.

**Advanced Glazing Series:**
- Electrochromic Glass
- Building Integrated Photovoltaic Glass
- Translucent Insulated Glass
- Translucent Insulated Glass with Lumira® Aerogel

**Polycarbonate** – Standard glazing of 25mm multiwall polycarbonate panels in Opal, Opal IR, Clear or Bronze. Lumira® aerogel filled panels are available for greater thermal performance. Other colors and panel thicknesses are available, contact your local sales representative for more information.

**Finish Options**

Wasco skylight structures are available in a broad range of colors and finishes:
- Mill (Standard) or Copper Clad
- Paint: Kynar and Baked Enamel (Standard Colors Below)
- Anodized: Clear, Bronze, Black

**Sizes**
