

Create Dramatic Daylighting

Non-Structural Skylight on Pitched Roofs Where Structural Support Is Present.

Available with a wide choice of high performance glazing and finish options, Wasco's low profile skylight structures offer virtually unlimited design possibilities for a fully customized configuration.

Developed for pitched roof applications, the Wasco Low Profile System is an aluminum-frame glass system that lays over roof rafters, creating a narrow line frame for a clean and appealing look on the roof line. Available in curb mount or self-flashing deck mount, the system accommodates multiple panels. Thermally-broken aluminum frame ships assembled and ready for field glazing.

Typical glazing a 1/2" high performance low-e laminated glass. Also available with impact rated glass (WBDR) or any of our Advanced Glazing Series options.

- For pitched roof applications where structural support by others is provided below the skylight rafters
- Structural support is required under rafters and purlins
- Prefabricated sections are simple to assemble and glaze
- Available in self-flash style and curb mount for unlimited pitched applications
- Minimum recommended roof pitch is 3:12

FINISH OPTIONS

Mill finish is standard on all models. Kynar and Baked Enamel colors shown. Anodized finish also available in clear or bronze (dark, medium or light) as well as copper cladding.

ADVANCED GLAZING OPTIONS

- Triple-Glazed – Solarban® 60 Solar Control Low-E Glass
- Translucent Insulated – Solara® Insulated Glass
- BIPV – Mono-Crystalline or a-Si Thin Film
- Electronically Tintable – SageGlass®
